

Features on WebScope

Image Adjustment: This window allows colour and contrast adjustments to the digital slide currently being viewed.

Thumbnail: Shows the entire image.

Pan: Click and drag to move the image in the WebScope window

Annotations: Show / hide annotation window. Not all slides are annotated. Some annotations are saved in different layers, with different colours.

+ - : Magnify or shrink current field of view.

Scrolling: Click and hold the mouse button down to scroll in that direction.
